**IFF
Position Description**

Title:	Network Security Administrator
Reports to:	Director of Information Technology
Department:	Information Technology
Department Function:	Oversee all operations and ensures the highest level of quality of operations and administrations of IFF on a day-to-day and strategic basis, manage planning processes, Board relations and systems.

The Organization

IFF improves the world by strengthening nonprofits and the communities they serve. As a mission-driven lender, real estate consultant, and developer, IFF helps communities thrive by creating opportunities for low-income communities and persons with disabilities. Key to our success has been a deep sense of purpose, a broad perspective, and a relentless focus on achieving positive results. Across the Midwest, we help clients from every sector, including human service agencies, health centers, schools, affordable housing developers, and grocery stores. Staff contributes its extensive business experience with an unrivaled connection to the mission of IFF and the nonprofit clients it serves.

IFF is looking for candidates with a commitment to the work it does and can demonstrate their creativity, detail-orientation, diligence, efficiency, enthusiasm, flexibility, organization, thoughtfulness, and sense of humor.

Our staff of nearly 100 professionals works from our Chicago headquarters, and we also serve the Midwest from six regional offices: Indianapolis, IN; Detroit, MI; Kansas City, MO; St. Louis, MO; Columbus, OH; and Milwaukee, WI.

Basic Job Function

Oversees the networking and security operations on a day-to-day basis. Manages networking equipment, hardware upgrades, and monitors the Microsoft Azure and Threat Security Protection services. Manages Meraki security appliances and responsible for access control and administers Microsoft Azure environment. The individual in this role will be responsible for ensuring network and security systems remain up to date and oversees Microsoft Threat Security Protection services, remediate security and threat incidents, and resolves hardware and network issues across IFF multi-sites.

Job Duties and Responsibilities:

1. Defends systems against unauthorized access, modification and/or destruction and keeps users informed of known security threats.
2. Determines security violations and inefficiencies by conducting periodic audits, identifying abnormalities and reporting violations
3. Designs, setups and configures networking equipment
4. Maintains multi-site network operations
5. Implements security improvements by assessing current situation; evaluating trends, and anticipating requirements
6. Performs vulnerability testing, risk analysis and security assessment
7. Designs and conducts security audits to ensure operational security
8. Responds to inquiries from staff, system administrator, service providers, and outside vendors to provide technical assistance and support
9. Troubleshoots malfunctions of network hardware, telecommunications and security systems to resolve operational issues and restore service.
10. Works with Director of Information Technology to create controls and procedures around data security.

11. Performs other duties as assigned.

Performance Measures:

1. Security incidents are analyzed, remediated and documented appropriately.
2. Efficient use of time and ability to manage multiple projects.
3. Network equipment and security systems are up and running with little to no downtime
4. Timely completion of all work. Deadlines set and met regularly.
5. Demonstrated knowledge of managing firewall and intrusion detection technologies
6. Cultivates a culture of openness in information sharing. Encourages open communication, cooperation, and the sharing of knowledge.
7. Models personal accountability that promotes ownership and engagement.
8. Builds and maintains effective working relationships with colleagues, peers and team members.
9. Values and supports differences in others, contributing to an inclusive work environment. Demonstrates the ability and willingness to communicate effectively with people of diverse backgrounds and experiences to create a collaborative, collegial, and caring community.
10. High level of satisfaction with both internal colleagues and external contacts.

Position Qualifications:

Education: Four-year degree in Information Technology, Computer Science, or Information Systems or relevant experience and certifications in one of more of the following: CompTIA, Security+, CISSP or CISM.
